**NEWS RELEASE**  
**April 30, 2007**

## **Gold Port Resources Drilling Update**

**Vancouver** – The Company is pleased to report on drilling activity at the Akaiwong Project, located in Mining District 4, Guyana, South America. The Akaiwong Project is located 20 kilometers southeast of the significant gold discovery at Aurora by Guyana Goldfields ( TSX: GUY ).

Hole AK06-33B, located along Line 16 South, was restarted and completed to a depth of 150 meters. The rig was then relocated to hole AK07-34 and completed to a depth of 100 meters. The rig is now being relocated to AK-07-35 for the continuation of the program. All core is being split on site, and shipped to Georgetown for preparation by ACME Laboratories. Fire assays will be completed by ACME Laboratories of Vancouver B.C.

Private Placement - The private placement announced March 6, 2007, is awaiting the completion of due-diligence by the interested parties. Terms remain as announced.

Gold Port Resources is an aggressive junior exploration company with three gold exploration projects in Guyana, South America. The Company's exploration portfolio includes the Akaiwong Project, the Groete Creek Project and the Five Stars Project. Gold Port employs its own exploration drill equipment with an experienced Guyana based staff. The Company's focus is to quickly evaluate high potential reward projects.
